

**We lay the groundwork
for the space you live in.**

**We transform garage floors from filthy to functional with a
highly-durable, low-maintenance epoxy coating.**

You'll be surprised how your new epoxy flooring completely transforms the look and feel of your garage, with little other changes. But we're dreamers. We love to collaborate to create. If you want to go next-level with your garage "living space" project, we would love to hear your vision, and build your Twin Cities dream garage space with you.

**Epoxy is ideal for garage
makeovers because they:**

- ✓ Are easier to clean
- ✓ Are more protective than another paint coat
- ✓ Handle traffic well
- ✓ Are aesthetically pleasing (they're pretty!!)

* Fill out and return the form on the back of this flier so we can contact you to discuss your needs, budget, and time frame.
